Step 2 of 5

Fluency Assessment

Welcome to the Fluency Assessment!

This section is designed to evaluate your communication and speaking skills for internship readiness. Please read the instructions carefully before you begin.

Instructions:

1. You will be given 5 short speaking tasks.
   Each question will appear one at a time on your screen.
2. Speak your answer clearly and confidently.
   Use your microphone to record your voice. You'll have up to 60 seconds per question.
3. After recording, your speech will be automatically converted to text using AI speech recognition.
   The system will analyze your:
   - Pronunciation
   - Grammar
   - Vocabulary usage
   - Fluency
   - Confidence level
4. Try to speak naturally — don't rush or memorize.
   Express your thoughts as if you're in a real interview or group discussion.
5. Make sure you're in a quiet environment.
   Avoid background noise and ensure your microphone is working properly.
6. You cannot skip or re-record once submitted, so speak when you're ready.
7. After completing all questions, your fluency score and feedback will be shown before moving to the next step.

When you're ready, click "Start Assessment" to begin.

Step 3 of 5

Knowledge Assessment

Welcome to the Knowledge Assessment!

This section is designed to evaluate your understanding of your academic field and your readiness to apply that knowledge in a real internship environment. Please read the instructions carefully before you begin.

Instructions:

1. You will be given 10–12 multiple-choice and short-answer questions.
   Each question will appear one at a time on your screen.
2. Questions are automatically selected based on your course or field of study.
   Example: Computer Science, Business, Design, or Engineering.
3. This is an adaptive quiz.
   The difficulty of questions will change depending on your previous answers.
   Correct answers lead to more advanced questions.
4. Read each question carefully before answering.
   You will have up to 45 seconds per question to choose or type your answer.
5. After submitting each answer, AI will instantly evaluate your response and provide short feedback or explanation for learning purposes.
6. Scores are based on:
   - Accuracy of your answers
   - Time taken to respond
   - Difficulty level reached
7. Avoid refreshing or leaving the screen during the test.
   If the connection is lost, your progress may not be saved.
8. At the end of the assessment, your Knowledge Score and Level (Beginner, Intermediate, or Advanced) will be displayed before proceeding to the next step.

When you're ready, click "Start Assessment" to begin.

Step 4 of 5

Experience Assessment

Welcome to the Experience Assessment

This section is designed to evaluate your real-world problem-solving, decision-making, and professional behavior in workplace-like situations.
It helps assess how well you can apply knowledge, handle challenges, and communicate solutions—key qualities for internship success.

Instructions:

Please read these instructions carefully:

a. You will be presented with 5 scenario-based questions related to common workplace situations.
b. Each question will have multiple-choice or short descriptive options.
c. Choose or type the most appropriate and professional response based on how you would act in a real-life internship setting.
d. Think critically — there is no absolute right or wrong answer, but your choices reveal your readiness and approach.
e. Once you select or submit an answer, you cannot go back to previous questions.
f. The AI system will evaluate your responses based on:
   - Decision-making quality
   - Problem-solving logic
   - Professional communication
   - Ethical awareness
   - Adaptability and teamwork skills
g. Make sure you're in a quiet environment with no distractions.
h. When ready, click "Start Assessment" to begin.

Step 4 of 5

Experience Assessment

Scenario:

Your supervisor assigns you a group task, but one team member is not cooperating and delaying progress.

Question:

How would you handle this situation?

- [ ] Ignore the issue and focus only on your part.
- [ ] Report the team member immediately to your supervisor.
- [ ] Try to communicate and understand their difficulty before escalating.
- [ ] Complete their work yourself to meet the deadline.

Step 5 of 5

Resume Generation

Welcome to the Final Step: AI-Powered Resume Creation

Congratulations on reaching the final stage of your Internship Readiness Assessment!
In this step, the system will automatically generate your personalized internship resume based on the data and evaluations collected in previous steps.

How It Works

Our AI Resume Builder combines information from the previous steps to ensure your resume highlights your true potential:

1. Basic Profile & Education (from Step 1)
   → Personal details, academic background, and key skills.
2. Fluency Assessment (from Step 2)
   → Communication level and language fluency summary.
3. Knowledge Assessment (from Step 3)
   → Core subject strengths and technical expertise.
4. Experience Assessment (from Step 4)
   → Problem-solving ability, teamwork, and job readiness indicators.

All of these data points are processed by AI to create a professionally formatted, skill-focused resume that reflects both your academic knowledge and workplace preparedness.

Instructions Before Generation

Please review the following before continuing:

- Make sure all your details are correct from previous steps.
- You can edit or update your profile summary and skills before finalizing.
- The AI system will generate:
  - Resume summary paragraph (auto-written)
  - Key skill highlights
  - Academic details
  - Assessment insights (Fluency, Knowledge & Experience)
  - Internship readiness rating
- Once generated, you can preview, download (PDF), or share the resume.

Click "Generate My Resume" to proceed.
